CONFERENCE LABORS

Great Enthusiam for Old Willamette

Importance of Senator Booth's Gift to the School

List of Appointments Made to the Oregon Churches

(Special Correspondence.) Grants Pass, Sept. 29,-The Oregon innual conference adjourned today, without date, but not until the time and been consumed until 5:30, or within 25 minutes of the train on which most of the visitors wished to eave. It was the fourth day of business sessions, and was, no doubt, the hardest day of all; 10 a. m. had pre-viously been fixed as the time at which to decide where the next conference should be held. At that time Rev. W B. Hollinghead nominated Centenary enurch, Portland, by the authority of its official board. Dr. J. T. R. Lathrop nominated Grace church, Portland. while Rev. B. T. Rolands nominate: Eugene. Rev. D. A. Watters rose to name Salem, but also stated that it was not by the direct authority of the official members, not that Salem did not want the conference, but, having had it about three years ago, it was not thought obtainable. The bishop arose to state special reasons why it should go to Salem, saying that it ould be going rather to Willamette University, stating further that the University would then be free from debt, and the endowment well under

Interest in and enthusiasm hat institution was so great, and es pecially since Senator Booth's gift of \$11,000 was made public only the ev-ening before, that the plan met with the hearty concurrence of all. Those who had nominated other churches arose at once to withdraw such nom-inations, and Salem was unanimous-

It was proposed that in view of the probable achievements by that time, that the next conference be made the occasion of a grand jubilee. It is doubtful if many appreciate the full significance of these developments for old Willamette. Every member of the conference has been almost beside himself with joy since Dr. Cooleman's address Saturday night, not so much T. for what Senator Booth's gift is worth in itself, but for its influence and indirect results of it. There can scarcely e a shadow of doubt that in thre months every dollar of the \$35,000 debt shall have been provided for, if not

actually paid.

After the selection of the place for the flext conference Bishop Cranston said that the report of the committees would now be heard, but M. C. Wire was called to the chair, while the bishop and presiding elders retired branch of our business that we for deliberation in cabinet in adjusting the appointments. At noon adjourn ment was had until 2 p. m., when the hearing of reports was continued, with Dr. Wire in the chair, the cabinet still perfect manner, besides optical called up business preliminary to adapproved, and the appointments read there had been a general expectancy and desire that the conference be red vided into three districts, instad o four. The bishop explained that i seemed best not to make such re adjustment at this time, but that in a

year, or, at most, two years, it could more easily and better done. Howver, the boundary lines between the listricts was readjusted. Portland district losing and Grants Pass district caining, respectively, four pastoral harges, while Eugene and Salem lost ur and gained four new ones. Dr. Wire goes back to Albany for als seventh year, no Methodist pastor ever having served longer than he li ne same charge connecutively. His on, a graduate of Garrett Bible Insti-

ute, takes his first work, and is in rusted with the important field of rownsville. Taken as a whole, there ere comparatively few changes. The appointments for the various hurches of the conference were an ouncett as follows:
